User Acceptance Testing: SauceDemo

Jaleel Meli | London | jme992838@gmail.com | github.com/JaleelMeli/saucedemo-manual-testing

Overview

Two user stories for the SauceDemo e-commerce site, written from the shopper's point of view. Each has acceptance criteria in Given/When/Then format, test cases linked to the story in Jira, and a UAT sign-off. This complements the main manual testing portfolio, which tests against technical requirements.

Site	https://www.saucedemo.com
Environment	Safari on macOS
Tracking	Jira (KAN board): stories and test cases linked
Tester	Jaleel Meli
Dates tested	26 Oct 2026 (US-01), 27 Oct 2026 (US-02)

US-01 Login (KAN-19)

User story: As a registered shopper, I want to log in with my username and password, so that I can access the products and buy things.
Test data: standard_user / secret_sauce (valid); standard_user / wrong_password; locked_out_user / secret_sauce; empty username and password.

Acceptance criteria

AC1: Valid login
Given I am on the SauceDemo login page
And I have a valid account (standard_user)
When I enter my correct username and password and click Login
Then I am taken to the Products page
And I can see the list of items

AC2: Wrong password
Given I am on the SauceDemo login page
When I enter a valid username and a wrong password and click Login
Then I see an error message saying the username and password do not match any user
And I stay on the login page

AC3: Locked-out user
Given I am on the SauceDemo login page
And my account is locked (locked_out_user)
When I enter my correct username and password and click Login
Then I am not logged in
And I see a message saying my account has been locked out

AC4: Empty fields
Given I am on the SauceDemo login page
When I leave the username and password fields empty and click Login
Then I see an error message saying the username is required
And I stay on the login page

US-02 Checkout (KAN-24)

User story: As a logged-in shopper, I want to check out the items in my basket, so that I can place my order.
Test data: standard_user / secret_sauce; Sauce Labs Backpack ($29.99) and Sauce Labs Bike Light ($9.99); customer Jaleel Meli, postal code E10 5TQ.

Acceptance criteria

AC1: Complete an order
Given I am logged in and have items in my basket
When I enter my first name, last name and postal code and complete the checkout
Then I see a confirmation message that my order is complete

AC2: Correct totals
Given I have two items in my basket and I am on the checkout overview page
When I view the order summary
Then the item total matches the sum of the item prices
And the total equals the item total plus tax

AC3: Missing details
Given I am on the checkout information page
When I leave a required field empty and click Continue
Then I see an error message saying which field is required
And I stay on the information page

AC4: Cancel checkout
Given I am on the checkout information page
When I click Cancel
Then I am taken back to my basket
And my items are still in the basket

Test cases

ID	AC	Steps (summary)	Expected result	Actual result	Result
TC-05 (KAN-25)	AC1	Add both items, open basket, Checkout, enter details, Continue, Finish	Confirmation page shows "Thank you for your order!"	Confirmation page shown: "Thank you for your order!"	Pass
TC-06 (KAN-26)	AC2	Reach the checkout overview page and read the prices, tax and total	Item total $39.98; total equals item total plus tax	Item total $39.98, tax $3.20, total $43.18 (39.98 + 3.20)	Pass
TC-07 (KAN-27)	AC3	Leave first name empty, enter last name and postal code, click Continue	Error says first name is required; stays on information page	"Error: First Name is required"; stayed on information page	Pass
